

"I want to express my sincere appreciation to you and your team for an exceptional job building EA's new tradeshow exhibit.

I originally chose Point Concepts because you were the only firm that let me meet face-to-face with a designer to discuss my ideas. That made a world of difference; you nailed my concept/idea, with only minor changes, on the first rendering. EA's image has increased one hundred-fold compared to our previous exhibit.

The quality and integrity of the structure is amazing not to mention the ease of set-up. Your team exceeded my expectations from calming my fears to the quality workmanship to the organized way the booth is packed to the thoroughness of the installation instructions.

I will not only use your services again. I will shout your praises from the highest rooftop. Thank you, again, to you and your team for an exceptional job!

Your team did an AWESOME job on everything and I am "for one" extremely pleased with the results."

"...this new design definitely conveyed that message. Attendees made comments such as, "This is awesome! I could see you from the entrance." The sleek, modern design gave our display a futuristic look we've not had before. Literature racks were easy to manage and access. One of our biggest challenges in the past has been storage space. The tower's locking interior space accommodated extra marketing collateral and giveaways, as well as conference bags and staffers' jackets. For the first time in memory, our booth remained tidy and organized! All of these features made my job as booth manager much easier and I ended the conference with enough energy to enjoy the day."

"You did an awesome job and we appreciate you burning the midnight oil to get it done... Thanks again for all of your hard work!"

"We are very happy with our overall product. Especially the quality of Whitney's and the fabrication shop's work."

"I would like say how pleased everyone has been with Point Concept's deliverables in all areas from booth fabrication to superior recommendations for "value-add ins.""

"The booth looks AWESOME! We are really excited!"

"I received great comments from our team that used the booth at the Goodyear Show. They also received compliments from attendees."

"Thanks for your help and the good folks at PC."

"Both designs are awesome! Great job!"

"Thanks for doing such a nice job for me OVERALL!!"
